Envelopment of Russian Armies By New Movement Feared By Allies

FROM THE BALTIC TO BUKOWINA

Teuton Forces Have In-
vaded 100 Miles

SEEK TO CRUSH RUSSIA

Between the Closing of Two
Lines Like a Gigantic Pair
of Pincers, Superimposed
Upon the Smaller Pair In
Which Warsaw Was
Squeezed—Balkans Are
Important.

ASSOCIATED PRESS TELEGRAM
London, Aug. 7.—Holding the bridge
at Warsaw, over the Vistula river, the
most formidable military obstacle in
Eastern Europe, Germany and Aus-
tria-Hungary having conquered the
river line and with it invaded Rus-
sian territory for an average depth
of 100 miles along the front from the
Baltic to Bukowina, are now throwing
their forces forward in an endeavor
to accomplish what Russia's allies
have so feared—the complete envelopment
of the Russian armies.

The British press, basing its opin-
ion on Petrograd dispatches and the
lack of reports to the contrary from
either Berlin or Vienna, is inclined to
the view that the forces of Grand
Duke Nicholas retired from Warsaw
virtually intact, but there is an in-
creasing disposition not to minimize
the seriousness of the situation as it
still exist, and the anxiety of the
quadruple power seem to be manifest-
ed in renewed pressure to bring the
Balkan states in line on the side of
the entente powers.

Quiescent Sweden is now restless,
and even so conservative a newspaper
as the London Morning Post, find
cause for comment in Sweden's grow-
ing hostility to Russia as stimulated
by German successes in Poland.

Whether the present Balkan nego-
tiations will be more fruitful from
the entente standpoint than were
previous attempts to align these states
against Germany and Turkey, is de-
batable, especially so as Greece, ac-
cording to an Athens dispatch, quot-
ing Premier Gounaris, refuses to con-
sider the relinquishing of any territory
to Bulgaria, a concession which
might clear the situation.

Though still holding Novogeorgivsk,
the whole Russian garrison remains
at bay. Thus the Russian armies not
only are menaced back of the Warsaw
salient from which it is assumed they
were not entirely clear before heavy
German forces broke across the Vistula,
to the southeast of Warsaw, but a
larger and more formidable envelopment
movement has taken definite form,
being in effect a great pair of pincers
aiming at Dvinsk in the north and at
Brest-Litovsk in the south, and super-
imposed on a smaller pair which
sought, and still seeks, to crush the
Russian forces in and around Warsaw.

There is the chance that the grip
of the smaller pair may not be ef-
fective and it will take some time to
demonstrate whether the more am-
bitious movement succeeds.

New President of Portugal, Elected Today By Congress, Popular With All Classes

ASSOCIATED PRESS TELEGRAM
Lisbon, August 6.—(Via Paris,
Aug. 7.)—Bernardino Machado was
elected by congress today president
of the republic of Portugal.

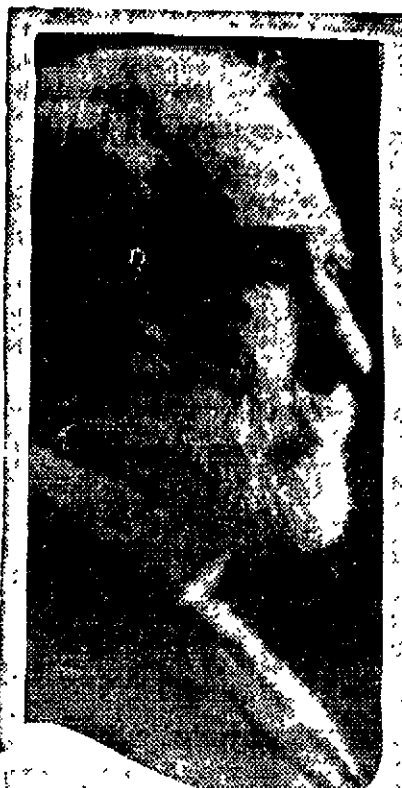

Senhor Machado, who was supported
by the two principal parties was
elected on the third ballot by a ma-
jority of 134 of the 379 members
present.

The new president is popular
with all classes in Portugal, and al-
though large crowds assembled out-
side the chamber to await the action
of parliament, his election was con-
sidered a certainty.

Senhor Machado has been promi-
nent for years in the public life of
Portugal, having served his country
as premier, provisional minister of
foreign affairs, minister of the interior
and minister to Brazil. He has
been considered the foremost man
in the republican party and before
the overthrow of the monarchy was
regarded as the logical choice of that
party for the presidency. In Janu-
ary, 1908, he was accused of con-
spiracy against the Crown, but the
charges never were proved.

When King Manuel II was de-
throned and the republic proclaimed
on October 5, 1910, after a short re-
volution, Senhor Machado was ap-
pointed minister of foreign affairs
in the cabinet formed by the provision-
al government. The following
year he was a candidate for the pres-

FUNERALS OF DROWNED IN ERIE'S FLOOD

FEDERAL GOVERNMENT WILL

—Inquest Monday.

Erie, Pa., Aug. 7.—Harbor Creek,
eight miles east of Erie, was hit by
a tornado and cloudburst early to-
day, according to an appeal for help
received here this morning. Property
valued at many thousands of dollars
is reported to have been blown or
washed away. Relief was sent from
here. So far as known there was no
fatalities.

to be buried today while Coroner
Hanley and his deputies were arrang-

scheduled for Monday. Competent
engineers were at work preparing
data for presentation to the war de-
partment at Washington with a view
to federal regulations that would
prevent further filling in of the Mill
Creek channel and thus tend to avoid
a repetition of the disaster.

For years it has been known that

3 MEXICAN BANDITS KILLED FOR MURDER OF TWO AMERICANS.

ASSOCIATED PRESS TELEGRAM
Brownsville, Texas, Aug. 7.—
Fighting three against twenty,
three Mexican outlaws were
killed by a posse last night at
a farmhouse about thirty miles
north of here. One posseman
was slightly wounded. The
fight lasted not more than ten
seconds. The posse heard that
the gang of a dozen bandits
which raided Sebastian yester-
day and killed two Americans
had separated, most of them
going to their homes on the
American side of the border.
The officials were after one
Mexican who had been recog-
nized among the raiders of Se-
bastian yesterday and did not
know any confederates were
with him.

Lord Kitchener, who runs away
from the photograph in London,
permitted one of them to take this
picture of him and the premier of
England being introduced to General

Drubbel, commander of the second
division of the Belgian army on the
battle front in France. The Belgian

British war minister while he is pre-
sented by General Bridges.

Carranza Surprises U. S. Government By Making the Proposition To Meet Other Leaders of Mexican Factions

ASSOCIATED PRESS TELEGRAM
Washington, Aug. 7.—The Mexican
situation moved forward today with
two important developments. Gen-
eral Carranza signified his willing-
ness to meet his adversaries in a
peace conference and an authori-
tative announcement was made of
the views with which the United
States is approaching the problem in
the Pan-American conference. The
position of the United States was of-
ficially stated as follows:

That neither Carranza nor
any other military faction in
Mexico is in control of the coun-
try or can be considered as tri-
umphant in the republic.

That the real purpose of the
revolution was accomplished a
year ago when Huerta was over-
thrown and that the strife
which has continued since has
been over factional differences,
and has not been in reality a
revolution.

That it considers General Vil-
la, while financially weakened,
still is an active element in Mex-
ican affairs who must be reck-
oned with in an adjustment.

That the so-called Cientificos
do not enter into the problem
now because it is considered
that the overthrow of Huerta
disposed of that element.

That the greater portion of
Mexico is not at peace as Gen-
eral Carranza claims, because
fighting continues in many sec-
tions from Tehuantepec to the
Rio Grande and from Vera Cruz
to Mazatlan.

That the first problem to be
solved in restoration of peace is
to find for provisional president
a man who represents the cause
of the original revolution
against Huerta, but who does
not necessarily represent any of
the factions now at war.

This outline is the first au-
thoritative statement of the
basis upon which the United
States is proceeding.

POLICE NOW THINK THEY HAVE LEADER OF AUTO THIEVES

ASSOCIATED PRESS TELEGRAM
Toledo, Ohio, Aug. 7.—With the
arrest here today of Roy Moore, 22,
in connection with an automobile
theft, police believe they have a key
to a problem which has been puz-
zling the authorities of Cleveland,
Detroit and Toledo, involving the
theft of more than 25 automobiles.
It is thought that a well organized
gang operates in these cities, dis-
posing of the machines to farmers
in Ohio, Michigan and Indiana.

Police claim that the trail leads
to a fence in Angola, Ind. where a
number of cars are said to have been
disposed. It is believed that Moore

the state department by his Ameri-
can counsel, Charles A. Douglas, not
only proposes a peace conference
with his adversaries, but practical-
ly asks recognition.

It was made clear today that the
United States, while willing to en-
tertain claims of the rival leaders,
particular tough with the Mexican sit-
uation, was today completing the
draft of the Pan-American appeal to
the factions in Mexico which will be
presented to President Wilson before
the third meeting of the conference
is held in New York.

Meanwhile, the six Pan-American
diplomats, invited to confer with
Secretary Lansing on the Mexican
problem, have submitted reports to
their governments, replies to which
probably will be received before the
meeting in New York which was cal-
led by the secretary to meet early
next week. The meeting place was
transferred to New York, because
the various diplomats are spending
the summer in the vicinity of that
city.

Discussion at that meeting will
deal more particularly with the pos-
sible steps to be taken should the ap-
peal to the Mexicans to end the civil
war themselves fail of its object.

The diplomats are leaving for
their summer homes today after a
two days' conference which resulted
in no decision as to the exact course
to be followed in the event that the
appeal to the Mexicans to settle
their differences and restore peace
goes unheeded. All of the conferees,
however, are in accord with Presi-
dent Wilson's general plan and have
pledged individual support, although
the diplomats are not sure that this
can be accomplished unless the mili-
tary leaders can be eliminated and
all classes in Mexico reconciled.

One of the most important ques-
tions which will be considered in ef-
forts to solve the Mexican problem
is the weight to be given to the
claims of the military chiefs and
what concessions between them can
be arranged.

In this connection, the dispatch
of Major General Scott, chief of

BY SELECTION ONLY IS RACE TO BE BETTER

LUTHER BURBANK APPLIES THE
SAME LAWS OBTAINING IN
PLANT CULTURE

To Human Eugenics in Address Be-
fore National Conference on
Race Betterment.

ASSOCIATED PRESS TELEGRAM
San Francisco, Aug. 7.—"Only by
constant selection of the best can any
race be improved," said Luther Bur-
bank, the plant specialist, in an ad-
dress before the second National Con-
ference on Race Betterment. His sub-
ject was "Evolution and Variation
With the Fundamental Purpose of
Sex."

"Environment and education,
alone, cannot," he said, "make ap-
preciable progress in the improve-
ment of the race. But with favor-
able surroundings and the selection
of the best types, the field for im-
provement is limitless."

Mr. Burbank described the possi-
bilities in plant life of "fixing char-
acters which benefit the species
through natural selection, giving the
new combinations new abilities to ad-
vance."

"Abundant, well balanced nourish-
ment and thorough culture of plants
or animals," he said, "will always
produce good results in holding any
species or variety up to its best
hereditary possibilities, beyond which
it cannot carry them, and lacking
which, maximum development can
never be realized. But a sharp line
must always be drawn between the
transient results, temporarily attain-
ed through favorable environment
and the permanent results of selec-
tion of the best individuals for con-
tinuing the race."

"What would be the result if all
apple, plum, peach, melon or potato
seed was indiscriminately planted?
Soon worthless mongrels only, hav-
ing no character and no value for
any purpose."

"Only by constant selection of the
best can any race ever be improved.
No education, no environment of any
nature can ever make any appreciable
progress, even though these same fa-
vorable surroundings may produce
through a definite but infinitely slow
increment, which by constant repeti-
tion becomes slowly available in
heredity, but by no means fixed, so
that reproduction true to the better
type can be depended upon."

"It is becoming increasingly neces-
sary to impress the fact that there
are two distinct lines in the improve-
ment of any race; one by favorable
environment which brings individuals
up to their best possibilities; the
other ten thousand times more im-
portant and effective—selection of

Bavarian Prowess Lauded By 100,000 Who Assembled To Celebrate Warsaw's Fall

ASSOCIATED PRESS TELEGRAM
Munich, Aug. 6.—Via Berlin and
London, Aug. 7.—A crowd of over
100,000 persons, representing all
classes of society, assembled at ev-
ening today on the historic Koenigs-
platz of Munich to celebrate the Ger-
man victory at Warsaw and Ivan-
gorod. This gathering is being talked
of tonight as the greatest in the his-
tory of the city. The manifestation of
patriotism were remarkable in them-
selves, but they were overshadowed
by the evidences of a deep religious
feeling on the part of the assembled
multitude. During the celebration
aeroplanes circled in the air over the
Koenigsplatz and the hum of their
motors could be heard constantly
above the sounds of thousands of
voices.

Every inch of the great square, from
the Glyptothek to the art museum,
and from the Propylaeon to the Areis-
tias, was filled with the great
crowds. With bare heads the people
stood in the light of the setting sun,
and before giving expression to the
national pride in the success of Ger-

man arms in Poland, a fervent prayer
went up to God.

The remarkable celebration began at
a quarter past seven in the evening
with the simultaneous ringing of all
the church bells in Munich. For two
hours previous to this time crowds
had been streaming from all direc-
tions to the Koenigsplatz bedecked
with flags for the occasion.

At half past seven to the accom-
paniment of a military band, which
had taken up its position on the pil-
lared portion of the art museum, the
crowds sang the Ambrosian "Te
Deum."

It was during this swelling volume
of song that four aeroplanes circled
above the square, now rising, now
sinking to a 100 feet above the heads
of the people, the whirr of their mo-
tors joining in with the sound of the
singing of the crowd.

The "Te Deum" was followed by the
singing of another choral. Detach-
ments of police and firemen had been
ordered to the square to preserve or-

ed. These men joined in the singing
of the second anthem, "Now Thank

ASSOCIATED PRESS TELEGRAM
Columbus, Aug. 7.—Both men and
girls are "tagging" Columbus today
under the auspices of the Columbus
Federation of Labor in search of
funds for the relief of idle and needy
Hocking Valley district miners. At
noon it was announced that the pro-
ceeds of the campaign have been sat-
isfactory, but the work would be
pushed energetically during the rest
of the day.

At state relief headquarters in the
adjutant general's office, contribu-
tions were reported as coming in very
slowly. These headquarters are still
several hundred "short" of the li-
abilities incurred in giving provisions
and transportation to miners and
their families.

Meantime an effort to get miners
from the Hocking district to work in
non-union mines in Kentucky have
failed. W. P. Lee, representing the
Pond Creek Coal Co. of Stone Ky.,
said today that his company had of-

miners at once and to see to their
transportation but that the offer had
been turned down on account of the

IDLE MINERS ARE

AT CLEVELAND JOBS.

ASSOCIATED PRESS TELEGRAM
Cleveland, O., Aug. 7.—Governor
Frank B. Willis, on his way to Ver-
million, Ohio, to speak at a tri-coun-
ty fair, stopped here today to see
how his plan for getting city jobs
for idle Ohio miners was working
out. After his investigation he de-
clared the project was a bigger suc-
cess than he dared to hope. He told
Superintendent W. F. Hennessey, of
the State City Free Employment bu-
reau that 500 more miners could be
sent to Cleveland on short notice if
they could be placed.

MASONS MEET AT 11:30 FOR SUNDAY TRIP

Newark Knights Templars and Blue Lodge Members to Assist in Hospital Dedication.

All the preparations for the attendance by the Masons of Newark at the cornerstone laying ceremonies of Bethesda hospital at Zanesville tomorrow are now completed, and it is anticipated that there will be several hundred members of the order from Licking county present on that occasion. The members of the two lodges, with all sojourning members of the order who propose to attend, will convene in the lodge room at 11:30 a. m., when Newark lodge will open for work. St. Luke's Commandery, with sojourning St. Luke's, will open at the same hour in the asylum and at 12 o'clock in the line of march to the B. & O. depot will be taken up with the commandery acting as escort to the lodges. The former will be headed by the famous Ladies' band of Chicago Junction, which has been secured by the St. Luke's for the occasion. The popular Buckeye band will lead the lodges. It is anticipated that there will be 500 members of the lodges in line at Zanesville, while it is hoped that St. Luke's will turn out at least 150 swords. Many of the members of both bodies will go to Zanesville in autos, or by other means of transportation, and hence the full membership will not be in the line of march in Newark. If the weather is favorable the Ladies' band will go to Granville in the morning and give a sacred concert in front of the Masonic temple in that village before the church services begin.

Many of the wives and sweethearts of the Masons will accompany them on this trip, while others of Newark's citizens will also go down. The special train will leave Newark at 12:25 and returning leave Zanesville at 6 o'clock. This will give all who desire to attend church before going or in the evening ample time to do so. Those who wish can get their dinner and supper in Zanesville as that city has made ample preparations to care for all its guests. It is suggested that the railroad tickets be secured early. They are now on sale at the club room and will be sold in the lodge room Sunday morning.

The Luke's Commandery and its band—the Chicago Junction Ladies' band—have been assigned to lead the first section of marching knights.

The Buckeye band with Acme and Newark lodges F. & A. M., will lead the second section.

Four thousand men will take part in the parade, including a number of grand lodge officers, who will have charge of the cornerstone laying.

All members are requested to bring their apron and white gloves.

BY SELECTION

(Continued from Page 1.) The best individuals through a series of generations. By this means and by this only, can any race of plants, animals or man be permanently or radically improved. When these two lines of action are combined, all the best qualities of any type are brought forth and fixed—and the field for improvement is limitless.

"The world needs a new aristocracy—a real aristocracy made up of Apollos and Venuses and their fortunate progeny," said Dr. J. H. Kellogg, of Battle Creek, Mich., in his address on "The Eugenics Registry."

"Instead of such an aristocracy," Dr. Kellogg continued, "we are actually building up an aristocracy of lunatics, idiots, paupers and criminals. These unfit persons already have reached the proportions of a vast multitude: 500,000 lunatics, 80,000 criminals, 100,000 paupers, 90,000 idiots, 90,000 epileptics, and we are supporting these defective in idleness like real aristocrats, at an expense of one hundred million dollars a year, and this mighty host of mental and moral cripples is increasing, due to unrestricted marriage and other degenerative influences at a more rapid rate than the sounder part of the population so that they are bound in time to constitute the majority unless some check is put upon the increase. Everyone of these lunatics possesses the right to vote even in states where women are not given the right of franchise."

Dr. Kellogg proposed a "scheme for race betterment," which he thought should be set in operation as speedily as possible. This included the establishment of a "health registry" on which should be recorded the results of an annual health inspection of individuals made by a bureau maintained by the state for the purpose, and of a "eugenics registry" to accomplish in behalf of race hygiene "what the health registry would seek to do for personal health."

"The establishment of such a registry will be one of the most effective means of arousing an interest in health as a personal asset," he said, speaking of the first. "Such a registry would be invaluable in connection with the operation of restricted marriage laws. Of course, a great educational work must be done for the general public before such a registry would be appreciated or even tolerated; but as the people become more intelligent in relation to the value of health as a factor in personal efficiency, and a means by which the physical welfare of the individual and of the race may be promoted, a health ambition toward bodily perfection will be developed and in time, health as an asset will come to be esteemed as more precious than gold.

"A eugenics registry would be the beginning of a new and glorified human race which sometime, far down in the future will have so mastered the forces of nature that disease and degeneracy will have been eliminated. Hospitals and prisons will be no longer needed, and the golden age will have been restored as the

crowning result of human achievement and obedience to biologic law."

Another suggestion by Dr. Kellogg was a health survey in every community at least every five years. "In this survey," he said, "notes should be made of all particulars relating to water supply, milk supply, and other public matters which might influence health, but especially with reference to the existence of degenerative disorders and chronic infections, especially insanity. Whatever obstacles may present themselves at the start, will rapidly disappear as the public becomes enlightened in relation to the objects sought by the survey, and the advantages which individuals, as well as communities, may gain therefrom."

Other proposals included state dispensaries "with every facility for the most thoroughgoing investigation of morbid conditions"; regular systematic health inspection of schools; and the organization of a thoroughgoing system of health education by the state. "Physical perfection contests embracing all ages should be inaugurated in every community," he said. "Medals should be awarded to the winners in each grade. By means of lectures, moving pictures, and other means, the public must be educated to an appreciation of the importance of periodical medical examinations for the purpose of discovering the beginnings of nervous and other disorders."

ITALIAN SUBMARINE SUNK BY AUSTRIANS.

(ASSOCIATED PRESS TELEGRAM) Paris, Aug. 7.—The Italian submarine Nereide is reported to have been sunk in an encounter with an Austrian submarine off the island of Belogosa in the Adriatic Sea, according to a special dispatch from Rome.

The Nereide, which was built in 1913, was 134 feet long with a beam of 14 feet and displacement of 315 tons gross. Her peace time complement was 17 men.

ASSESSORS WILL NEXT YEAR WORK UNDER AUDITOR

(ASSOCIATED PRESS TELEGRAM)

Columbus, Aug. 7.—On the ground that the county auditor will be responsible for tax administration in his district after January 1, the state tax commission today refused to authorize the district tax assessors of Cuyahoga county to proceed with a general revaluation of the real estate of the county. However the commission said that it realized there is "great inequality" in the valuations of real estate in the county and suggested that the district assessors confer with the county auditor regarding possible co-operation.

Should such a conference be had, the commission says in its statement that it will consider the revaluation request again.

County Auditor Jesse W. Hursey will have charge of the Licking county assessors after January 1, when the new Parrett-Whittemore bill goes into effect.

Auditor Hursey will fix the salaries of the assessors in Licking county, the law stating that the compensation shall be from three to six dollars per day during the time the men are at work. The auditor shall determine the compensation. It will be necessary for him to pay all assessors the same amount per day, but he will be permitted to pay the men according to the amount of work done.

The county auditor will also have the power to discharge assessors. Under the new law assessors will be elected, but where the men chosen prove to be unfit for the work, the auditor can discharge them for cause and appoint men in their places. Appointive assessors may be summarily removed for want of moral character, inefficiency, incompetence, neglect of duty or malfeasance in office. An elected assessor must be given a copy of charges made against him and opportunity for a public hearing upon ten days' notice. The auditor's decision upon the charges is to be final.

The forces of men now working in the wreckage were further increased today and hundreds of wagons were pressed into service.

Dynamite was brought into use, and such piles of debris as did not yield readily were blown to pieces. No bodies were uncovered early in the day.

NOT ONE INCH OF TERRITORY WILL GREECE GIVE UP

(ASSOCIATED PRESS TELEGRAM)

London, August 7.—"Greece will not cede one inch of territory to Bulgaria," was the substance of a reply made by Premier Gounaries, to a delegation of Macedonian deputies, who asked a statement relative to the purposes of the government, says a Reuter dispatch from Athens.

In the negotiations, which have been conducted by the allies of the quadruple entente with Bulgaria in an effort to induce her to enter the war on their side, she insistently demanded that she be ceded that part of Macedonia which was awarded to Serbia at the close of the Balkan wars. She also has sought to obtain at least a portion of the Macedonian territory which came under the Greek flag in the same way.

Macedonia was a Turkish province until the close of the Balkan war. The region embraces a medley of peoples, the chief elements being Slavs, Osmanlis and Greeks. The Slavs are Bulgarians and Serbs.

The statement attributed to M. Gounaris is sufficient in view of the fact that the British, French, Russian and Italian ministers at Athens called upon him Wednesday and made united representations regarding the political situation. There purpose was to gain the assistance of Greece.

Similar representations were made yesterday by the representatives of the same nations at Nish. This was regarded as the second step in the attempt to bring about a Balkan agreement so that Bulgaria, Rumania and Greece may be numbered among the allies.

CARRANZA

staff of the army, to the Mexican border to confer with General Villa, occasioned considerable comment here today, although officials explained that he was to readjust the American forces in the light of recent developments which have threatened attacks on border towns. The object of his mission, it is believed, is to outline to Villa the need of consideration for the other factions. Some of the conferees, it is understood, were impressed with the fact that General Carranza's military successes and the territory held by him entitled him to greater consideration than Villa has been inclined to admit.

CARRANZA BRIEF

Formally Filed Today With Secretary of State Lansing.

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 7.—On behalf of General Carranza, a formal brief on the Mexican situation was filed with Secretary Lansing today, practically asking for political recognition and proposing that Carranza's Washington agents meet any of other factions in a peace conference.

The brief submitted by Charles A. Douglas, General Carranza's American counsel, sets forth the formal suggestion of a peace conference in the following language:

"We have in Washington Mr. Arrendondo in the capacity of a special representative and, at this time, Mr. Cabrera, a member of Mr. Carranza's cabinet is here. They are men of fine ability and excellent character, and are anxious to serve their country in the highest and best sense. In either or both of them, I am assured, will be glad to confer with any element of the Mexican people, with a view to furthering the common interest, the peace and the welfare of the nation."

The proposal to restore the Constitutional succession to the presidency where it was broken by the death of Madero by elevating Vasquez Tagle, a member of the Madero cabinet to the office of provisional president, the brief says, would defeat the aims of the revolution.

"The plan of the Constitutionalists," says the brief "and it is now well under way, is to make the principles of the Revolution effective as war measures, by military decrees, during the extra constitutional period, and then to have the congress ratify them—translate them into law."

It is argued that Tagle is neither impartial nor fitted for the office and that his recognition could only be based on the theory of cabinet succession. His qualification would instantly and automatically restore the Constitution.

"If the constitution is in this manner restored," says General Carranza's brief, "it would effectively prevent the putting into effect of the principles of the revolution as war measures, by military decrees, because these things can only be done in the way indicated and during the extra constitutional period."

"The plans and purposes, and principles of the revolution would therefore become ineffective and the revolution would be as if it had never been fought, and the ideas underlying it as if they had never been conceived, and Mexico would be as Mexico was before, except for the loss of life, destruction of property, and the paralysis of business. It would indeed be a short cut route to complete victory for the enemies of the revolution."

The argument has been no member of the Madero cabinet since Pedro Lascurain who could legally assume his office.

"Assuming for the purpose of the moment," the brief continues, "that Tagle is technically legally in the line of succession, it cannot be hoped that he can be provisional president in fact unless he has support. When the revolution has triumphed so far as to have with it more than ninety per cent. of the Mexican people, can it reasonably be expected that one not an active, thorough

constitutionalist, will have the real support even of a respectable minority of the Mexican people—and would this support be weaker or stronger if he be installed into office at a time and under circumstances that would bring about surely the defeat of the principles . . . for which the revolution is fought?"

"If the facts I have endeavored to marshal are accurately stated and I believe them to be, then the Constitutional government is entitled to recognition in the interest of law and order in the interest of political progress, in the interest of humanity and in the interest of democracy in Mexico and in our own country. Recognition while of the greatest aid to peace in Mexico, will not immediately make the country tranquil. Some months may be required to restore order generally but if the work of pacification can be prosecuted under the auspices of a government having the recognition and good will of the government of this nation, it is reasonable to hope that it may be completed before the end of a year."

Mr. Douglas included in his brief the substance of a recent conversation with General Carranza on the subject of compromise, or the selection of a neutral man as provisional president, pending the resumption of constitutional order. He quotes General Carranza at length in elaboration of the contention that the purposes of the revolution must be accomplished as war measures, promulgated by military decree to be ratified later by the congress and that the revolution would be defeated by the immediate restoration of the constitution.

The proposal of a conference came as a surprise, not only to the representatives of the other Mexican factions but to American officials who have been led to believe that General Carranza was irrevocably opposed to any further parleys with his adversaries.

The reluctance of General Carranza to come into any peace negotiations was one of the first obstacles which confronted the Pan-American diplomats when they began their conferences with Secretary Lansing.

FRENCH REPORT SPIRITED FIGHT; GRENADES USED

(ASSOCIATED PRESS TELEGRAM)

Paris, Aug. 7.—The French war office this afternoon gave out a statement on the progress of hostilities in France, reading:

"Last night passed quietly on the western part of the front. There has been reported nothing more than some engagements with hand grenades in the vicinity of Souchez and artillery fighting in the region of Tracéy-Le-Val and in the neighborhood of Berry-Aux-Bac."

"In the western section of the Argonne there has been a continuance of the very spirited fighting with grenades and the bombs. An attack of the enemy in the vicinity of Hill No. 213 has been repulsed."

"In Lorraine, a strong German reconnaissance has been dispersed by our fire at a point not far from Leinre."

"In the Vosges there has been nothing to report."

led by Herr von Durschel, lord mayor of Munich.

After this, the lord mayor in a voice heard distinctly in all parts of the great square, made a short patriotic address, closing with a call for three cheers for King Ludwig of Bavaria, Emperor William, and Emperor Francis Joseph.

The assemblage then joined in singing "Hail to the King," the melody of which is the same as "America." Other patriotic songs were rendered by the crowd.

NO FORCE USED IN HAITI UNLESS STERN NECESSITY

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 7.—Secretary Lansing conferred today with Rear Admiral Benson, acting secretary of the navy and word was sent to Rear Admiral Caperton at Port Au Prince expressing the solicitude of the state department that no force be used unless absolutely necessary to preserve order and that there should be no further occupation of the republic than was necessary to keep peace.

It was said that the two Haitians killed yesterday by marines were resisting the order to disarm all natives not enrolled in the Haitian army.

The American officers are to supervise the collection of customs to the extent of guarding against any diversion of funds.

FOUR FISHING SMACKS SUNK BY SUBMARINES

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 7.—The British fishing smacks, Heperus, Ivan, Ces and Fisherman have been sunk, presumably by German submarines. The fishing crews were landed today.

The fishing smacks, Heliotope and Challenger, also have been sunk. The Danish steamer, Hans Emil, has been set on fire. The crew was saved.

SWEDEN LOOKING AT RUSSIA WITH SOME SUSPICION

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 7.—The London Morning Post declares the attitude of Sweden toward Russia and the latter's allies for some time has revealed elements of a disquieting character.

"Emboldened by recent German successes," the newspaper says, "the latent hostility of Sweden, which has never forgiven the loss of Finland, has become strongly developed. Considerable preparations for warlike contingencies have been made in North Sweden and the Swedish army is fully mobilized. If Sweden persists in her unfriendly attitude toward Russia she may rapidly drift into a war which would inevitably be a great obstacle to her future progress."

The Times, in a long analysis of the Swedish situation, says, the war party has lost its importance and the people generally accept neutrality as the wisest course.

"Sweden's decision to remain neutral is as firm as ever," was the reply today of the Swedish minister in London, Count Wrangel, to rumors published in the London newspapers this morning of the possible participation of the Scandinavian kingdom in the war.

"There is no foundation for the rumors," the minister said, "and the suggestion that Sweden contemplates action for recovery of Finland is absurd. Premier Hazonoff's speech in the Russian duma on Sunday clearly indicates the relations between Sweden and Russia are of the most friendly nature."

REPORT CARRANZA ORDERS AMERICANS TO BE PROTECTED

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 7.—General Calles, commanding the Carranza forces threatening Nogales, has received instructions not to endanger Americans. The American consulate at Vera Cruz today so advised the state department.

Further reports from the same source state that Zapata's raiders have been operating along the Tehuantepec Railway where they have burned the stations of Los Naranjos and Tres Villas.

A Premier Who Won't Write.

Count Okuma, though he is the author of books and pamphlets and innumerable magazine and newspaper articles, dictates all his work to a secretary and so far as is known has never even written his own signature. The truth of the matter is that he forms the beautiful Chinese characters like a schoolboy, and, since the autographs of the great are highly prized in Japan, many expedients have been successfully tried to get a scrap of his writing. A friend once made an attempt which came near being successful. He pretended to have forgotten how to form a certain Chinese character and asked how it should be written. Count Okuma took up the brush and paper, which had been conveniently placed at his elbow, but the plot failed at the last moment, for he put down the writing material with a smile and traced the character with his finger on the ashes of the hearth.—Carl Crow in World's Work.

De Quincey's Monotonous Diet.

De Quincey's style was variegated enough, but his diet was monotonous to a degree, his dinner for the last thirty years of his life invariably comprising some loin of mutton, boiled rice and coffee. Every day he interviewed the cook and told her to prepare these dishes, adding: "If you do not remember to cut the mutton in a diagonal rather than a longitudinal form, consequences incalculably distressing to my system will arise and will prevent me from attending in matters of overwhelming importance." No wonder the bewildered Scotsman when thus drenched with polysyllables for the first time was heard to remark, "The body has an awful sleet of words."—London Chronicle.

In Investigating Your Savings

Remember that there are two things you can get.

One is income. We pay four per cent. That it is not more is one of the sure indications of the safe and conservative management of this Association. It is a fair, even liberal return on money, considering the extreme safety.

The other thing you can get is protection.

Protection is all-important. It cannot exist without great safety, and it is not very valuable protection unless you can get your money back promptly. In thirty-five years this "Old Home" has never asked any one to wait for his money.

We invite your savings on the basis of fair income and the highest possible degree of protection.

LARRY DOYLE LEADING BATTER IN NATIONALS

(ASSOCIATED PRESS TELEGRAM)
Chicago, Aug. 7.—American League veterans, led by Cobb, hold a big majority of the batting honors, according to averages published here today. The first ten counting only those who have played in at least half of the games, consist mostly of well-known hitters, and is as follows: Cobb, Detroit, .401; Jackson, Cleveland, .339; E. Collins, Chicago, .331; Speaker, Boston, .320; Crawford, Detroit, .316; Strunk, Philadelphia, .316; Malsb, New York, .312; Fournier, Chicago, .308; Lewis, Boston, .305; McInnis, Philadelphia, .300.

Cobb has made the greatest number of runs—98—and also leads in stolen bases with 62. He is tied with his team-mate, Crawford, for total bases, with 183. Hartzell, New York, with five home-runs, leads in circuit-drives. Detroit leads in club batting with .268, and Boston is next with .266.

American League pitchers who have attained the 500 mark in 20 or more games are: Foster, Boston, 14 won, 4 lost; Scott, Chicago, 15 and 6; Faber, Chicago, 17 and 7; Ayers, Washington, 9 and 4; Shore, Boston, 10 and 5; Johnson, Washington, 16 and 3; Daus, Detroit, 14 and 8; Fisher, New York, 12 and 7; Coveleskie, Detroit, 15 and 9; Caldwell, New York, 15 and 9; Gallia, Washington, 10 and 6; Boland, Detroit, 8 and 5.

Larry Doyle, captain of the Giants, has hammered his way to the front in the National League, whose leaders are: Doyle, New York, .330; Snyder, St. Louis, .327; Daubert, Brooklyn, .322; Wade Killifer, Cincinnati, .312; Collins, Pittsburgh, .309; Luderus, Philadelphia, .307; Merkle, New York, .305; Groh, Cincinnati, .304; J. Smith, Boston, .304; Sailer, Chicago, .302.

The leading run-getter is Cravath, Philadelphia, who has scored 57 times. Seier, Chicago, who leads in total bases with 164, also leads the league in stolen bases with 22. Cravath, in addition to being a run-getter, leads the league in circuit-drives, with 15 homers.

Cincinnati leads the league in club-batting, with .254, while St. Louis, with .253, and New York, with .253, are tied for second.

The leading pitchers are: Pierce, Chicago, won 9, lost 2; Mameaux, Pittsburgh, 16 and 5; Alexander, Philadelphia, 19 and 6; Ragan, Boston, 13 and 6; Mayer, Philadelphia, 16 and 8; Dale, Cincinnati, 14 and 8; Deil, Brooklyn, 10 and 6.

Federal League batting leaders are: Magee, Brooklyn, .344; Flack, Chicago, .343; Kauff, Brooklyn, .339; Fischer, Chicago, .337; Easterly, Kansas City, .333; Campbell, Newark, .325; Ronchi, Newark, .319; Yerkes, Pittsburgh, .319; Deal, St. Louis, .314; Cooper, Brooklyn, .312.

In club batting, Brooklyn with .267 is in the lead, and Pittsburgh is second with .262.

Magee and Kauff hold the lead in number of runs scored with 61 apiece. Konetchy, Pittsburgh, has the greatest number of total bases, 186. Kauff, with 32 stolen bases, leads in that department, while Hal Chase, Buffalo, is the slugging king with 11 homers.

The leading pitchers are: F. Allen, Pittsburgh, with 16 wins and 7 losses; Cullip, Kansas City, 15 and 7; Grandall, St. Louis, 12 and 6; M. Brown, Chicago, 10 and 5; McConnell, Chicago, 10 and 5; Packard, Kansas City, 12 and 7.

THREE RACES ON MUDDY TRACK AT KALAMAZOO.
(ASSOCIATED PRESS TELEGRAM)
Kalamazoo, Mich., Aug. 7.—Clear skies finally smiled over Kalamazoo today for the closing card of the Grand Circuit harness races. The paper mills stake of \$10,000 for 2:03 trotters and three other events were to be decided. The total purse for the four races was \$16,000. Besides the Paper Mills classic, horses were to compete in a 2:06 pace, 2:09 pace and 2:10 trot.

There will be no racing here tomorrow and the free for all pace which was expected to be one of the big features of the meeting, has been called off.

Although the track was muddy from the rains which had caused three postponements of the Grand Circuit races here this week, three events were run yesterday. One of these, the 3-year-old trot, was easy for Colorado Range, who won a similar race in Detroit last week, but the other two were well contested the winners finishing in a close drive in a majority of the heats.

Lettie Lee, who was considered the pick of the field in the 2:11 trot, proved a disappointment and never was better than third. Sadie S. finishing sixth in the first heat, came strong and took the next three.

Flaxy B. won the 2:11, pace taking three heats out of four. She was fifth in the second heat.

The 2:12 trot for 3-year-olds was a procession, so far as the result was concerned, the five starters finishing each heat in the same order.

AUTO-BALLON RACE AT PITTSFIELD, OHIO: MAN TO TAKE PART.
(ASSOCIATED PRESS TELEGRAM)
New York, Aug. 7.—Announcement of an automobile-balloon chase to be held at Pittsfield, Mass., on September 30, was made today by Leo Stevens. The contest will be like that of last year when Steven's balloon led the other entries in a chase over the Berkshire hills pursued by the automobiles.

Among those who have already signified their intention of entering the event is E. B. Weston, of Dayton, Ohio.

Among the balloons which will enter the chase and compete for the Portland Field Bishop cup, are the Sky Pilot, the Icu, the North Adams, the Stevens 27, the Boston and the Delight. Each will carry a passenger and a pilot.

Burke Golf Company Gets Fine Award On Exposition Exhibit

BURKE GOLF COMPANY'S EXHIBIT.

Newark has another feather in her cap. The Burke Golf Co. has just received the official ribbon issued by the Panama exposition as a symbol of the award recently made to this company as the winner of the grand prize in golf clubs and shafts.

This ribbon has been framed and is on exhibit in the window of Collins drug store where it has attracted a great deal of attention.

We show here a picture of the exhibit which this Newark concern made at the Panama exposition. The San Francisco newspapers commented upon the beauty of the golf company's exhibit in very high terms. The exhibit was in the hands of the Pacific coast representative of the company, Mr. Barton, who has succeeded in establishing a fine business for the company on the coast.

Few people in Newark realize the extent of the business that is being done by this concern. Originally it began by the manufacture of shafts only and succeeded in establishing a large trade in Great Britain. Next, it took up the manufacture of the finished club, so that today it makes not only shafts, but hand forged iron heads, wooden heads and the complete club. This year has been a particularly fine year for the company as its business has more than doubled. It has given employment to between 60 and 70 people, in fact, every available space is used in the company's plant for working men so that it has been running to its fullest capacity, much of the time on two shifts.

The company was compelled to lay off two of its traveling men early in the season for the reason that it was unable to get out sufficient goods to meet the demand.

This flattering increase in business has been due not only to the great increase in popularity of the game, but also is a recognition of the superior quality turned out by the Burke Golf Co. When it is realized that there are only three domestic concerns in the business of which the Burke Golf Co. is one and that \$4,000,000 was spent last year for golf clubs and repairs, according to very reliable statistics, the opportunity for business expansion in this particular line is self evident.

This concern started about four years ago, employing five men, and its growth has been very creditable to those in charge of its business affairs.

NEW RECORD IS EXPECTED TODAY; START AT 3 P. M.
(ASSOCIATED PRESS TELEGRAM)
Chicago, Aug. 7.—With all of the drivers predicting that a new automobile race record at 100 miles will be made, Dario Resta, Earl Cooper, Bob Burman and Barney Oldfield were prepared to meet in a match race on the two-mile course of the Speedway Park association this afternoon. The drivers have been practicing at the track for the race all week, and all except Oldfield have their cars primed for record-breaking speed. The latter says he has not had time to tune his car properly.

A hitch in the arrangement arose when Cooper protested against Burman driving a car with a piston displacement of more than 300 cubic inches. The Speedway Park association will attempt to adjust this situation before the contest, which is scheduled to take place at 3 o'clock.

It is claimed that all of the entrants have shown a speed of more than 104 miles an hour in practice and the fact that there will be few cars on the track to delay them is pointed out as proof that the record of 99.65 miles an hour, made here in the automobile derby, will be beaten. The drivers will race for a purse of \$10,000, and will be sent away to a flying start.

RAIN AGAIN STOPS RACES; TWO CALLED OFF.
Toledo, Aug. 7.—Two out of five scheduled events had to be called off here yesterday, the last day of the Toledo meeting. One other, the 2:25 trot, was unfinished, but was given to Billy Turcheon with two of the five heats.

Darkness made further racing impossible. The 2:17 trot and the 2:10 stake trot were the ones called off. Rain halted the pastime for more than an hour and when it stopped, automobiles were driven around the track to dry up the mud.

Vic Fleming, driving Jack Johnson in the 2:13 pace, got into a collision on the back turn and was sent to a hospital with a strained ligament in his leg. His horse was uninjured.

SHOVELIN AGAIN.
Johnny Shovelin continues to get into the headlines of the Columbus papers. In yesterday's game with Kansas City he made a nashy and difficult play in the fifth inning and did it so fast that he stopped as rapid a traveler as Compton. The shortstop ran over to Benson's side of second, reached the bounding ball with his gloved hand and did the shifting and throwing while on the run. Shovelin and Ray Miller also participated in an error, where had the play been perfect, K. C. would have been retired. After the error the visiting team scored five runs.

VINCENT ASTOR TO GIVE TROPHY FOR AUTO RACE

(ASSOCIATED PRESS TELEGRAM)
New York, Aug. 7.—When the Sheepshear Bay speedway opens on October 2, the 350-mile inaugural race will be for a perpetual automobile trophy which was offered today by Vincent Astor, the event to be known as the Vincent Astor cup race. In addition to the trophy the speedway management offers \$50,000 in cash prizes for this event.

Originally it was intended to have the first race known as the American cup race, but with the offering of the Astor cup, it was decided to make this the first race over the big speedway and the American cup race will be contested at a later date.

That the Astor cup race will produce great speed is indicated by the conditions, which are that no car shall be eligible to compete for the trophy unless it is capable of making an average speed of 85 miles an hour.

HISTORIC SCENES ARE PICTURED IN NEW B. & O. BOOK

"The Blue and the Gray," is the title of a historical booklet issued by the Baltimore & Ohio Railroad, descriptive of battlefields on or near its lines and which bear evidence of bitter conflicts which stirred the American people in Revolutionary days, during the second war with England in 1812, and the Civil war.

The booklet is attractively prepared and elaborately illustrated by views of points of historic interest, the cover design embodying the emblems of the men who wore the blue and of those who wore the gray, supporting the Stars and Stripes.

Of the interesting illustrations are the headquarters of General Washington at Winchester and at Valley Forge, the headquarters of General Meade and General Lee at Gettysburg, the monument which marks the high-water mark of the "lost cause" during this battle; General Stonewall Jackson's headquarters and the house where John Brown planned the attack upon Harper's Ferry.

A brief history of Colonial and Revolutionary times is recited and stories are also told of the principal events of the war between the states, including the attack upon the Massachusetts regiment in Baltimore, John Brown's conspiracy at Harper's Ferry, battles in the Shenandoah Valley, at Cedar Creek to which General Sheridan rode from Winchester "twenty miles away," and at Martinsburg, where the railroad's property was destroyed, its locomotives taken away for service at other points in the South.

The description of the battle of Gettysburg is from the account of General H. S. Huidekoper.

The monument to Francis Scott Key, author of the "Star-Spangled Banner," in Frederick, Md., near which city he was born, and Patrick street in Frederick, through which Stonewall Jackson's army marched during the Barbara Fritchie incident, are also among the illustrations.

The battles on or near the Baltimore & Ohio, from the first engagement at Phillipsburg, N. J., June 8, 1861, to General Lee's surrender at Appomattox Courthouse, April 9, 1865, are arranged chronologically for ready reference. One hundred and fifty-eight battles were fought on soil adjacent to the Baltimore & Ohio Railroad during the Civil war.

The booklet is being distributed complimentary to students of history and tourists.

RACING CARS TO TRY NEW SPEEDWAY AT DES MOINES, IA.

Des Moines, Ia., Aug. 7.—With Ralph de Palma, Ralph Mulford and Eddie O'Donnell among the drivers, automobile racing enthusiasts here counted on a possible new world's record for a one mile scientifically banked board speedway in the 300 mile automobile derby this afternoon.

De Palma and Mulford were out early this morning in final practice spins over the track. Bruno Lombardi was among fourteen who successfully made the elimination trial during the forenoon.

HORSE OWNERS ASKED TO ENTER FOR BIG RACES

Local horse owners are urged to send in early entries they care to make for the big horse race program on August 19, the day of the Farmers' and Merchants' picnic. The program consists of a Class A pace and trot, a free-for-all with one-mile heats, half-mile running dash, Class C pace and a colt race for horses three years old or under. Owners should communicate with L. B. Corbett or Wilfred Jones.

Five entries already have been received for the mile race, six for the colt race and three for the Class A pace.

Theatres

At the Mazza.
"Blindness of Virtue" now is coming here and will be shown at the Mazza theatre Tuesday afternoon and evening. A moral lesson for young girls, as much as for their mothers; that is the analysis of "The Blindness of Virtue," a V. L. S. E. feature in six acts. This great photoplay deals with a question of vital importance to every home. It is modern methods of bringing up a thrilling indictment against the children, in ignorance of certain problems in life. Edna Mayo and Bryant Washburn take the leading parts in this great film adaptation.

In December, 1913, national savings in Russia amounted only to \$350,000; in December, 1914, however, after the sale of vodka had been stopped, the savings had reached nearly \$15,000,000.

C. A. C. Fights For Two Championships; Two Games Tomorrow

When the C. A. C. plays the Heiseys and the Stoner A. C., the latter of the Capital City league, they will be contesting for two championships, that of the league and also that of the city amateurs.

The first game will start at 2 o'clock and the opponents in this game will be the Heisey club with Minehart pitching. Carpenter is slated to oppose Minehart. Both teams have strong batting orders. After the first game is ended, the Stoners will play the regularly scheduled league game with the Newark boys. A good crowd is in prospect with anything like favorable weather conditions.

The lineup of the two clubs will be as follows:

C. A. C.—Winters, 1b; Carr, 1b; Ratches, ss; Boone, 3b; Mauger, 2b; Cashdollar, cf; Allen, rf; McCarty, c; Gebhart, c; Nichols, p; Gilbert, p; Carpenter, p.

Heisey's—Fairall, 1b; Smeltz, 1b; Bishop, ss; Brennan, 3b; Roudeshush, 2b; Strawn, c; J. Williams, c; Simpson, rf; Nutter or Thorpe, cf; Minehart, p; G. Williams, p.

STAR SPRINTERS IN EVENTS TODAY AT EXPOSITION.

(ASSOCIATED PRESS TELEGRAM)
San Francisco, Aug. 7.—Such star sprinters as Howard Drew, Alva Myers, Robert McBride and Joseph Loomis, and hurdlers Fred Kelley, Fred Murray, and R. Simpson, were to try conclusions in the senior championship of the Amateur Athletic Union at the Panama-Pacific exposition stadium today.

Close contests were looked for in the distance runs, in which the entrants include Norman Taber, holder of the world's record for a paced mile and Abel Kiviat, the New York Irish-American crack.

Obituary

Sister Benita (Miss Clara Beck.)
Friends in this city, will learn with regret of the death of Sister Benita (Miss Clara Beck), which occurred after an illness of a few months, Friday morning, at St. Marys of the Springs, Shepard, O. Sister Benita, aged twenty-five years, was the daughter of Mrs. Philomena Beck of 415 Eddy street, and practically all of her short life was spent in Newark. She attended the St. Francis de Sales parochial school, and six years ago was received into the Dominican Order of Sisters at St. Marys of the Springs.

By her quiet and unassuming disposition Sister Benita won the love and respect of all who knew her, and her death will be a sorrow to her relatives and friends.

Besides her mother, the deceased is survived by one sister, Miss Marie Beck.

The funeral will take place at St. Marys of the Springs, Sunday morning and the interment will be made in the cemetery at that place.

C. W. Miller's Funeral.
The funeral services for Charles W. Miller will be held at the late home in South German street, at 2 o'clock, Sunday afternoon, conducted by Rev. Don D. Tullis and Rev. Michael Schaeffer. Interment will be made in Cedar Hill cemetery.

Card of Thanks.
We desire to thank our neighbors and friends for their kindness and floral offerings during the sickness and death of our beloved husband and father and Rev. P. H. Fry for his consoling words and the quartet for their songs. Also Dr. J. W. Barker, Mr. Brady and Mr. Stewart for their services. Mrs. R. A. Kinney and Children.

Granville

(Special to Advocate.)

Granville, O., Aug. 7.—The opera house was filled to the doors last evening with one of Granville's finest and most appreciative audiences to do honor to the first presentation of Miss Grace Chamberlain's beautiful drama in verse, "The Sleeping Beauty."

From the rise of the curtain to the end of the performance the audience expressed its delight. The scene of the christening of the infant princess was beautifully staged, even to the stained glass cathedral windows, and the costuming of the entire company further enhanced the charming effect.

The fairy of Selfishness who had not been bidden to the christening intrudes upon the peaceful scene and leaves her curse for the unconscious infant. The fairy of Love seeks to neutralize the effect of the curse. The fairy Godmother makes a spectacular entrance in her golden coach drawn by mice, and all the assembled fairies and elves, in traditional fairy-earb with wings and spangles and flower petals engage in a fascinating little dance, which was warmly applauded.

The King and Queen in royal velvet and ermine wearing their crowns; the bishop in sacred robes; the christening font; the patient nurse; the captain of the guards; the soldiers in martial array; the couriers and ladies-in-waiting in gorgeous medieval dress, made up a group most pleasing to the eye, and suggestive to the imagination. The ball-room scene, even on this small stage, was charmingly enacted. The king on his throne, his beautiful queen by his side, dispenses justice to his humble subjects, the occasion being the sixteenth birthday of the Princess Rosamond, in whom the curse of the wicked fairy Selfishness has already begun its fatal work.

The handsome prince, in white satin, makes a noble appearance, and the beautiful princess, who steps the courtly minuet with him, is an enchanting picture. Six couple take part in this old-time stately measure, and at its conclusion, the princess, in denying justice to a suppliant, calls down the curse and the whole court falls into the enchanted sleep. Love comes to the rescue and the sentence is commuted. A man who loves unselfishly shall find the way to rescue her. The fairies then enter and bear her away to the waiting boat, which elides across the back of the stage on its way to fairyland. The prince then sings a heartbroken song of love, when the curtain goes down.

Tumultuous and determined applause failed to bring back the singer, or to summon the author, and the curtain rose on the final act where a touch of comedy was introduced most successfully. An impenetrable wall of thorny verdure encloses the fairy spot where the princess lies hidden from mortal eyes, awaiting the magic awakening. Several unworthy suitors try in vain to affect an entrance, but finally the true prince enters, in the garb of a knight and at his invocation the wall parts of itself the princess is disclosed with her lovely fairy attendants. The awakening takes place and the lovely maiden responds slowly and gracefully in a charming dance. She advances, recedes, dips, whirls. The tempo quickens, to the climax, then dies away, and she finally advances to the outstretched hands of the prince. The fairy band, bearing garlands, surround them and sing in delightful style the bridal chorus from the "Rose Maiden," in which the whole court joins. Then there were calls of "Author! Author!" and Miss Chamberlain appeared. She thanked them briefly, and ascribed the success of the play to her helpers. Mr. Kenneth Ullman and Miss Frances Jones made an ideal king and queen, with the regal appearance we associate with the characters. Mr. Ullman appeared in double role and in the final scene sang a rollicking song, set to music from "Carmen," in splendid voice and realistic manner. Miss Josephine Darrow was beautiful and appealing as the enchanted princess, and her dance in the final act was the climax of the scenic effects. Unfortunately the inadequate lighting of the opera house failed at the critical moment, and the spot-light gave only the impression of incomparable grace and fairy-like lightness in the awakening princess. Jack Hundley was a surprise to his friends. His acting was fine and his singing brought down the house, while his appearance as the Prince of Castilia was a delight to the eye. Jack is young, but he "arrived" last night. The other members of the cast were published in Tuesday's Advocate, and each made a personal and distinct hit with the audience, notably, Lowell Johnson, as Bishop and as Monk; Grover Sayre as Captain; Almonte Howell as the Duke of Mauvain; Miss Eva Wilson as Love; Janita Jones as Beauty; Frances Chamberlain as Truth; Katherine Rohrer as fairy Godmother, and Miss Louise Hamblin in her realistic acting of Selfishness, in which she displayed talent of a high order. The profits to the library fund of last night's entertainment, after deducting heavy expenses, will be something like \$45 or \$50.

Among those who contributed most to the success of the evening's entertainment was Miss Faye Hulsizer, accompanist and pianist, who devoted hours of her vacation to the rehearsal.

A pretty wedding took place on Thursday at the home of Rev. Bunyan Spencer in East Elm street, when Miss Alice F. Parrill plighted her troth to Mr. Harry D. Bolen of Granville. Miss Parrill's home is in Kentucky, and she has made her home with Mrs. Piper in North Pearl street for some time. She is a member of the Baptist church, and has made many friends in the village. Mr. Bolen is the efficient assistant of Mr. John Thomas.

The women of the Baptist Women's Missionary organization held an enjoyable picnic at the church yesterday afternoon and served a most appetizing supper. There was no program but a general social time was enjoyed by all present.

Paterson's Policewoman

Mrs. Grace Headlin

Mrs. Grace Headlin has been sworn in as the first policewoman of Paterson, N. J. She has charge of the dance halls of the city and sees the patrons keep to the conventional waltzes and two-steps and do not wander into the "kitchen sink" and others of the new dances.

Mrs. Headlin is forty years old. She was formerly matron at the Passaic county jail. She wears no uniform, but a small gold detective's badge is her mark of authority. In the summer she has only one dance hall to look after, but she expects that when the cool weather begins and Paterson's thirty public ball-rooms are running at full blast she will need help.

Mr. and Mrs. W. H. Dalbey are entertaining their sister, Miss Lorraine Dalbey of Boston, who will remain in Granville a short time before going on to Taylorsville, Ill.

The Knights Templar memorial service will be held in Zanesville tomorrow, and a fine cornet band from Chicago Junction will arrive in Granville tomorrow morning and will escort the knights from Granville and Newark. At 9 o'clock a fine concert will be given on the public square.

Two Doctors.

The famous Dr. John Abernethy, accusing a rich and famous quack, said: "Sir, you are no surgeon. You swindle the public. You deceive your patients. You are totally ignorant and utterly unscrupulous, and yet you live in a palace, ride in a chariot and actually smell of wealth. I, John Abernethy, surgeon of London and an operator, a student, an author, I, who strive to be an honest and conscientious man, must live in a humble abode, must walk my rounds and only by the hard est work do I make a bare living. Why are these things?"

The quack said: "Mr. Abernethy, you are London bridge. How many people, think you, cross it in a day?"

The surgeon answered: "I do not know; perhaps a hundred thousand."

The quack responded: "And how many of them are fools? You, Mr. Abernethy, attend the wise men; I attend the fools."

Couldn't Blame Them.

Papa had a groach, and an atmosphere of gloom settled over the family dinner table. Even little Bobby felt that something was wrong, but he had to talk or burst, and he preferred to talk.

"Daddy," he asked, "why did they throw the tea overboard in Boston harbor?"

Daddy twirled the spoon in his cup while he thought up this mean thing to say: "If it was any time like this stuff they certainly had a mighty good excuse for throwing it overboard."

Having got this remark off his chest, the old man felt so good that he actually smiled, and before he knew it his groach was gone.—St. Louis Post-Dispatch.

Ideal Helpmates.

The farmer's wife knows more about her husband's business than any other man's wife knows about his. She has a fairer, clearer and more helpful understanding of it than the average lawyer's, doctor's or merchant's wife can possibly have about her husband's business, for she lives and works with her husband on their "plant."

The farmer's wife is the farmer's partner in more senses than one. In the majority of cases she actually operates certain departments of the business.

Most wives have genuine interest in and some information about their husband's business, but the farmer's wife, living with her partner on their plant, occupies a unique position among all wives. With this greater opportunity for helpfulness than her city sisters her responsibilities have increased proportionately. All honor and respect to her who carries this heavier burden.—Farm and Fireside.

How Gasoline Engines Work.

In the practical operation of a gasoline engine there are several parts, each characterized by a particular event. The cylinder is charged by an outstroke of the piston, creating a vacuum behind it and drawing in the mixture of air and gasoline gas formed in the carburetor. The charge is then compressed by the return stroke of the piston, which act secures complete carburization of the contents. Air and reduces the mixture to the proper condition to be kindled by the igniting spark or other source of firing. This causes it to explode, or to expand suddenly and with great effect, and drive the piston outward again. The fourth stroke, which is the one immediately following the explosion, is known as the exhaust stroke from the fact that the piston, moving back again in the cylinder, expels the products of combustion through the exhaust valve.

This process completed, the parts are in position for a repetition of the process, the valves for admitting gasoline gas to the cylinder being opened again.—Philadelphia Press.

The Pianist's Speed.

Astonishing statistics have been gathered with reference to the amount of work accomplished by the brain and nerves in piano playing.

A pianist in view of the present state of pianoforte playing has to cultivate the eye to see about 1,500 signs in one minute, the fingers to make about 2,000 movements and the brain to receive and understand separately the 1,500 signs while it issues 2,000 orders. In playing Weber's "Moto Perpetuo" a pianist has to read 4,541 notes in a little under four minutes. This is about nineteen per second, but the eye can receive only about ten consecutive impressions per second, so that it is evident that in very rapid music a player does not see each note singly, but rather sees them in groups, probably a bar or more at one vision. In Chopin's "Etude" in E minor, in the second set, the speed of reading is still greater, since it is necessary to read 3,950 signs in two minutes and a half, which is equivalent to about twenty-six notes per second.—Independent.

Times Have Changed.

"You are careful to set an example for your son?" "I used to try to set him an example," replied the serious man. "But now I study him attentively to ascertain what kind of clothes I ought to wear, and the style of conversation that is considered smart."—Washington Star.

But you needn't mind how big your wash is, because it can be done without hard rubbing, boiling or scalding, if you know just how, with **FELS-NAPTHA** soap. All your housework can be quickly and easily done, Will not hurt the hands. Fels & Co., Philadelphia.

"Over The Wire"

Hazel has just this minute left. She is on her way over to your house. So I thought I'd call you up and let you know. For Hazel's surprise calls can be rather disconcerting. She's wearing a simply stunning afternoon costume and is very proud of it, so I would advise you to start dressing immediately. The dress? But you will see it in a little while. On, I see, not at home. You are welcome for the warning. It's Reseda green silk made in a sort of coat effect, which ends in long streamers that are loosely tied below the waist-line. A high waisted girdle of black velvet passes across the lace in front and comes out through two slits in the back and forms a flat bow. The sleeves are short ending in a deep flounce of lace and the skirt is of cream colored crepe de chine. Of course I won't tell her. I understand perfectly. You're entirely welcome. Good-bye.

In Milady's Boudoir

By Gwen Sears

Women of today, who do not have the luxurious growth of hair that was manifested in olden times, must realize that it is due to the present treatment given it. This scantiness of hair is a source of worry when it comes to arranging the coiffure. When such is the case and one does not wish to adopt artificial hair, one must then rely upon the use of a headress or hair ornaments to fill in the vacancy and detract from the scantiness.

The arrangement of the coiffure, however, cannot make a woman beautiful unless the face expresses that attribute. Perhaps little lines are manifesting themselves here and there upon the face. They may be due to age, habit or weather, but steps should be taken at once to arrest their progress. I have found the following sufficient, providing it's use is begun in time. It is not an astringent but an ideal bleach.

Have water boiling, then simmer two ounces of quince seed in twenty ounces of water for twenty minutes. Strain, add two ounces of pure alcohol and a few drops of scent if desired. When cold, bottle and keep tightly corked. This should be put on the face before retiring at night, first working it well in. When a fresh application is made allow it to dry on. In the morning, after the face wash an equal amount of the lotion and water is poured into a bowl. This is applied to the face, neck, hands and arms, allowing it to dry.

When the short skirt was accepted as an institution, women began to be more particular about their shoes. As they grew wiser and surer of themselves and their place in the world, they began to use their splendid sense in demanding the right shoes for their feet. That made the makers of shoes change their lasts. They were forced to make shoes that approached some lines for women's wear as well as men's.

The proper present shoe has the long vamp and slender appearance which characterizes the best type of custom-made shoes. The short vamp and the stubby toe are frowned on by the best dressers. The long, slender foot, like the long, tapering hand, has ever given the impression of aristocracy in the accepted meaning of the word.

Some may say there are more flat feet now than ever before, but it must be remembered that women are now using their feet as never before, and also that women have ceased to accept "any" shoes in which they used to hobble about and suffer in silence. They are not now afraid to speak when their feet trouble them, and are trying every sane means to better their condition.

Heels are the rule for general wear in all good shoe shops. When one buys Tingo ties and sandals there is more individual freedom of choice. But where one woman buys low heels for dancing, there are a million who buy for general wear.

Given the consciousness of good shoes and good gloves, and a woman can rise above the knowledge that her gown is not the freshest in style and appearance. Crown her with a modish and becoming hat and she can even forget the shortcomings of the rest of her clothes.

Your Boys and Girls

Large wooden beads are the easiest for the small child to thread on a piece of stout thread. The end can be waxed or a blunt ended needle can be used.

It often happens that little children, especially those nervous or highly strung, are disposed to keep on crying when they get started. When you wish a child to stop sobbing get him to take a good drink of cold water. It almost always will stop the sobbing immediately.

Every Day Etiquette

"When a man takes a girl to the theatre is it necessary for him to buy her a box of candy?" inquired Tom. "No, it is not necessary. If he wishes to send or take her something, he might buy her a bouquet of her favorite flowers," advised his mother.

THE NEWARK ADVOCATE'S BUY-AT-HOME DEPARTMENT

A DUTY YOU OWE TO THE NEWARK MERCHANTS

Before Sending Money to Distant Concerns, Citizens Should Give Local Merchants an Opportunity To Compete With Foreign Prices.

LOCAL MERCHANT IS A BENEFACITOR

A Good Citizen and a Friend In Need—Honest Men Given Credit—He Would Rather Be Right Than President—The Local Retail Merchant is Without Question the Community's Most Prominent Factor—Aids Farmer By Buying From Him.

[Copyrighted, 1914, by Thomas J. Sullivan.]

I would rather be right than president is the principle followed by many retail merchants.

There is no right without a parallel duty, no liberty without the supremacy of the law, no high destiny without earnest perseverance, no greatness without self denial.

As a dispenser of important services in any town none compares with the retail merchant.

Perhaps the first benefit of importance is the endless accommodations which he extends his customers. His books show that where misfortune, sickness or loss of occupation overtakes his customers he is frequently obliged to carry them for many months.

Honest Men Get Credit. The man who has not established a reputation for unreliability or dishonesty is reasonably sure of securing credit for the asking. And the extension of credit is equivalent to making loans without interest. And who would ask or expect any such favor of any one but a merchant or a very close and dear friend?

The local town to be a desirable place to live in must have police and fire protection. It must have bridges, improved streets, water, sewers and good schools. To secure these necessary improvements and to maintain them taxes must be levied. The local merchant pays a large share of the taxes.

Among other things, the local merchant is continually forced to contribute to all manner of charitable enterprises, both public and private. He is the local benefactor, inasmuch as he is the employer of labor. Numerous young men and women find employment in his store, and as the result of his investment and efforts many dollars find their way to the pocket of the doctor, the dentist, the editor, the druggist and the banker, all of which contribute to the social and financial prosperity of the community.

Faith In the Community. He aids the farmer by buying from him his products to the extent of his needs, thus increasing the profits of the farmer.

He has shown his faith in the community by investing his capital there; consequently his interests center there; upon him, in a measure, depends the social, religious, educational and commercial existence of the town, and he is ever willing to do his part.

All this being true, why is he not entitled to the same amount of consideration as that exacted by the farmer, the wage earner and the other factors of the community that are always crying for "fair treatment" and "the right to live?"

Destroying Local Markets. All he asks is that which is rightfully his—the opportunity to display his goods and compare prices with those shown in the misrepresented "picture albums" of the catalogue houses before you send your money away from home to buy something of the same quality which he can sell just as cheaply as does the big city merchant prince.

Take away from the community one of the most important elements of prosperity, the medium of exchange, and the effect is inevitable—a weakening of the organism. And that is precisely what the great mail order retail houses are doing. They are bleeding the local communities. They are destroying local markets, weakening local credits, reducing the volume of deposits in small local banks, starving out local business men who are consumers of farm products as well as dealers, driving to the large cities thousands of consumers who can no longer find employment in small towns, and the men who are aiding them in their work of destruction will soon pay the penalty in the shrinkage of the value of their property, as well as in the loss of their markets.

A Gigantic Monopoly. That the managers of these gigantic enterprises understand what they are doing is amply demonstrated by a remark recently made by one of their number in Chicago. He said, "Give us a few more years and we will make every city outside of Chicago a town, every town a village, every village a hamlet, and every hamlet we will wipe off the face of the earth."

What will the customers of the mail

order houses do then, poor things? They will have given aid and comfort to the enemy that has destroyed their prosperity. They will have assisted in building up a gigantic monopoly. Seduced by pretty picture books, they will have in their innocence starved out their own best customers. Deserted villages will then mark the places where prosperous communities formerly thrived, and the population of the country will be divided between the farms and the large cities. The prospect is not a pleasant one to contemplate.

Y. W. C. A. NOTES

The weather man finally got the better of us and Kill Kare Kamp is again a thing of the past—except in the memories of the girls who helped to make it a success—and that in spite of the innumerable rainy days and stormy nights. To these girls, the new friendships made, the happy life in the open, the singing around the campfire evenings, have put new meaning into life, and they are asking: "What can I do for some others who I may repay my debt to those who have given me so much happiness."

We broke camp Tuesday, but already plans for a bigger, better and more complete camp next year are being made.

There will be some "middy reunions" this fall and winter to remind us of our good times together. Some will be open to our friends interested in camp and others will be just Kill Kare Kamp family gatherings.

The leaders of the camp wish to thank all who helped so generously to make the camp a happy and successful one. Special thanks is extended to the conductors and motormen of the Columbus local cars for their courtesy and kindness to the girls and their patience with all the "excuses" baggage carried back and forth.

Mrs. Stevenson and Miss White did everything possible to add to our comfort, and particularly on the stormiest night when they asked the girls to come to the house to sleep. Who else but "Doc" Rimer would have watched over the camp so faithfully—setting tents, helping to straighten up after the storms, supplying the girls with candy, to say nothing of the chili con carne and jelly that found their way to our tables. "Doc" was always with in sound of the whistle ready to respond. And there are countless others, mothers and fathers, aunts and uncles, brothers and sisters, members of the board and committee's friends and neighbors, who contributed most generously to our welfare.

Last, but not least, Mr. Long of the Keystone Trading company; Max Dix, drayman; Mr. Larkin and Mr. John E. Fulton, grocers, merit our thanks for their share in our camp. To these and all others we say, most heartily, "we thank you."

Y. M. C. A. NOTES

An interesting ball game was played Thursday afternoon between the "Y" team and the grocery clerks. The score was 6 to 3 in favor of the grocers. The "Y" team has defeated the grocers twice before this game.

Rev. Wm. J. Williams, associate pastor of the large congregational church in Marietta, O., made the association a call on Monday. Mr. Williams was visiting his father here. He says that he owes his entrance into the ministry to the work of the Y. M. C. A. when it was located in the rooms above the Macy store. He has since graduated from the Oberlin seminary.

Postal cards have been received from Cyril Zentmyer, who is spending his vacation in Washington, D. C., and Philip Puckett, who took a trip to Cleveland. Prof. O. J. Barnes sends us greetings from New York City. The association men are glad to be thus remembered.

The association officers, members and friends, join in extending sympathy to the family of Thomas Sites. Mr. Sites was a regular contributor to the work of the association, and showed a real interest in its welfare. In April he voluntarily stopped at the building and left his check for the work.

Mrs. Laura Mitchell, who has charge of the lunch room during the winter, made the association a call a few days ago while on her way to Mt. Vernon to cook for Camp Sycamore.

"Dave" Pierce returned Thursday after spending a few days at his home in West Middlesex, Pa. He has taken the contract for making fudge for the whole city of Newark.

Plans have been made for another Saturday night to be held tonight. "Dave" will make the fudge. Members are invited to bring their friends, ladies or gentlemen. Stewart Bros. & Alward will furnish a Victrola.

Three boys were directed to work this week. Five members were recorded for a new year. Eleven boys received instruction in swimming. Many young men and women used the tennis courts.

Rev. J. W. Maxwell, formerly of Newark, now pastor of the Christian church at Lafayette, Allen county, O., made the association a call yesterday.

ALL MASONS MEET AT LODGE ROOM AT 11:30 A. M. TOMORROW MORNING TO GO TO ZANESVILLE.

ASSEMBLY GAINS IN ATTENDANCE AT SUMMERLAND

(By W. A. Holmes.)
Summerland Beach, Backeye Lake, Aug. 7. The attendance and interest are growing each day and the good things provided for our entertainment and instruction increase. On Thursday evening a large and appreciative audience listened to a fine concert given by the Columbus Conservatory Orchestra. The conductor, Mr. H. Godfrey Flux, gave two violin solos which delighted the audience. Mr. H. O. Armstrong also rendered two cornet solos which were very pleasing. The whole performance displayed work of a high order.

We have been especially favored this week in having with us Dr. Frederick E. Taylor, pastor of the First Baptist church of Indianapolis, Ind. Friday at 8:30 he spoke to the Sunday school workers and at 9:30 gave an address on "The Power of Prayer" to the largest audience that had yet assembled. As one busy man from the northern part of the state put it: "That address alone was worth the time and expense of being here." After leading the ministers' conference, Dr. Taylor left for Lake Minnewaska, N. Y., where he is spending the summer. No one who heard Dr. Taylor speak will regret having attended the assembly.

Early in the morning we are privileged to hear one of those splendid addresses by Dr. Ralph E. Bailey, of Cleveland. Friday his subject was "The Young People in Personal Work," and Saturday, "The Young Christian's Life Work." Each evening this week Dr. Bailey leads the vesper service. Next week Mr. Burgess of Detroit, will have charge of the vesper service.

Friday evening the auditorium was well filled for Mr. Eugene Laurant had been announced and he needed no introduction to an assembly audience. A delightful program in three parts held the interest of old and young. His "Pandora's Box," was a wonder in itself.

Dr. O. O. Carver of Louisville, Ky., arrived Friday and will give a number of addresses next week.

Friday at 3 p. m. aquatic sports under the supervision of Athletic Director Biggs were enjoyed by performers and spectators.

At the same hour on Saturday a missionary pageant worth seeing will be given.

Everyone who can possibly do so will want to see the fireworks on land and water Saturday evening. A rare treat has been promised.

Bible school will be held at 9:15 Sunday morning and classes provided for all. At 10:45 Dr. Ralph Bailey will preach. No one should miss this opportunity to hear him. Dr. Carver will speak at 7:30 p. m.

At 3 p. m. a sacred concert will be given by a Denison trio: Mrs. Marion Rose Johnson, soprano; Miss Ruth Rockwood, pianist, and Miss Gayle Smith, violinist.

A splendid program has been prepared for next week and every one should avail himself of the opportunity to hear the good things.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient a new constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

PENNSYLVANIA HAS THROUGH CARS FOR SMALL SHIPMENTS

Pittsburg, Aug. 6. — Hereafter when an Eastern shipper has a small package of freight to go to any of the more important cities in the Northwest, in the Missouri River territory or in the Southwest, he will be able to send it in a car that will go straight through to destination without the package being transferred to any other car.

The Pennsylvania Railroad has inaugurated a practice of sending through cars of merchandise freight by its Star-Union Line daily from New York to far western points, regardless of the quantity of freight offered for shipment.

Heretofore small consignments of merchandise from New York to far Western points have been transferred at various junction points en route, thereby causing delay. The inauguration of the improved service by the Pennsylvania means that hereafter merchants will be assured of a quicker and safer transportation service than they have hitherto enjoyed.

Why Go to Church Tomorrow?

By REV. CALVIN G. HAZLETT, Pastor of the First Presbyterian Church

BECAUSE

- 1.—God commands it. That is reason enough for any intelligent believer in a sovereign God. It leaves no room for argument. The King has said so. Jesus always went into the Synagogue on the Sabbath.
- 2.—It is a necessity of my being. My soul cries out for God and the fellowship of His people. The monotony of life must be broken. Just as the body, not getting sufficient recuperation out of the allotted rest of each twenty-four hours, absolutely requires one whole day in seven for its perfect recuperation, so my soul, although in communion with God each day, requires the suggestions, the fellowship and the inspiration of the Sunday church services for its perfect development. There is always a great and a sufficient reason back of every command God gives. His commands are never arbitrary.
- 3.—The church is unique in its relation, helpfulness and necessity to every community. It can have no successful competitor. No sane man would think of securing residence for himself and his family in a churchless city. Life is sinner, cleaner, better because of the presence of the church. The church helps every community financially, socially and morally. It promotes business, enhances the value of property and disseminates intelligence, culture and righteousness. Hence it deserves and ought to have my support. A church cannot be supported on money alone; money is only an incentive to church life. It needs living men. Therefore, I ought to support this great and noble institution by the influence of my example in attendance on its services.
- 4.—In going to church I am following in the footsteps of the greatest, the best and the brightest men in all ages. Jesus went to church. Paul went to church. Washington went to church. Lincoln went to church. Gladstone went to church. No man has ever been president of our great country who did not go to church.
- 5.—There is not one reason for my not going to church that is not based on utter selfishness.

Lodges

K. OF P.
Roland Lodge.

Notwithstanding the hot weather on Tuesday evening a large number turned out to witness the Esquire rank conferred upon five Pages. Several visitors were present from No. 13, Portsmouth, New Guilford and Fallsburg lodges, and all enjoyed the work. The officers were greatly pleased at the fine attendance and alluded to it several times. Two applications were received and referred to proper committees. Various phases of our new temple and its dedication were discussed at some length. The dedication of this magnificent temple, which occurs on Tuesday afternoon, September 22, is gradually assuming gigantic proportions, and if the preliminary plans are carried out Newark will not forget that date for some time. There are numerous ways in which you can help in this matter. Attend the meetings and learn these. Chancellor Commander Woodcock had on display the two fine prizes which he has offered to the two bringing in the most applications during his term of office. Page rank next Tuesday.

Newark Lodge No. 13.

Newark Lodge No. 13 met in regular session on Thursday evening with the largest crowd of resident Knights and visitors that it has been our pleasure to see in the hall for some time. And the meeting was enjoyed by every one present. The Knight Rank was conferred for the last time in the old hall the next term work will be put on in our new temple, which we will occupy about the first of September. The dedication committee report that they are getting everything in shape for the dedication of the temple and expect a large crowd here on that date, September 22nd. After the degree work on Thursday evening the refreshment committee announced that refreshments would be served and everybody enjoyed that part of the evening's entertainment, after which the regular social session was enjoyed by several of the members.

Mt. Olive Encampment No. 12.

Encampment met in regular session with a good attendance. The loving cup which was won in Columbus on July 13th was in the lodge room for the first time and this occasioned many fine talks on the trip and the order. The cup will be placed in the City Drug store window on public exhibition for a short time.

The following officers were installed for the ensuing term: C. T. Frank Shabugh; S. W. Wallace Wortman; J. W. L. Shannon; 1st Watch, W. G. Holman; 2nd Watch, A. Gobel; 3rd Watch, Frank Dush; 4th Watch, F. W. Atherton; J. G. Edward Moran; O. C. Frank Fry; Guide, J. G. McArthur; Guards of Tent, L. L. Jones and Louis Stargell.

The entertainment committee then served ice cream and cake. Patriarchs, come out and help "Boost" for a big class of candidates for next month.

The Eagles of Utica will give a big picnic in the grove west of that village at Haas lake on August 15. The public is invited. A large number of local Eagles and their friends expect to attend.

Enjoying Vacation.
Judge Thomas B. Fulton is enjoying the sea breeze at Atlantic City, having gone there for a couple of weeks recreation. The judge will try the sea water bathing as it was only a few years ago that he was known as an expert swimmer.

Condition Improved.
The condition of Mrs. J. A. Flory, who has been quite ill at her home in West Church street is said to be much improved today.

Vacation in Maine.
Mr. David Manning, proprietor of the Walk-Over shoe store, will leave this evening for Baltimore, going from there to Norfolk, Va., where he will spend a couple of days looking over Uncle Sam's fleet stationed in the Hampton Roads, and will then sail from Norfolk to Boston and after a visit of a couple of days in that city will take a boat for Bath, Maine, and will join his mother and sisters at their summer home on an island near the latter city.

Officer Suspended.
Police Officer John Greeley, suspended on a charge of being absent without leave, was given a hearing on the charge before C. F. Dayton, safety director, last night. The director's decision probably will be announced Tuesday or Wednesday of next week.

Returns From Vacation.
Officer Swinehart, who has been on a two weeks' vacation which he spent at Asheville, N. C., returned to Newark last night.

Four Drunks Fined.
Four plain drunks, all giving out-of-town points as their places of residence, were fined in police court Saturday morning.

Weiss Reunion.
The Weiss reunion will be held at Mountbuilders park, Saturday, August 14. Friends and relatives are invited.

Knitting is a Scotch invention of the fifteenth century. Soon after its invention a guild of stocking knitters was formed, with St. Flance as its patron saint. Hand knitting was supplemented by machinery as early as 1589, when William Lee invented the knitting frame.

HOSTER-COLUMBUS BREWERIES CO. IS REORGANIZED

(ASSOCIATED PRESS TELEGRAM)

Columbus, Aug. 7.—The Hoster-Columbus Co., Inc., purchaser of and successor to the Hoster-Columbus Associated Breweries Co. of Columbus, was officially authorized to operate in Ohio by Secretary of State Hildebrand today. The new company is a New York corporation, with headquarters at 165 Broadway, New York City. The Ohio offices and plant will remain the same as those of the bankrupt company which was wound up by federal court receivership.

The authorized number of shares to be issued, under the reorganization plans, is 30,000, consisting of 10,000 shares of six percent, non-cumulative preferred at \$100 par value, and 10,000 shares of common stock with no specified par value. Twenty-five year six percent bonds in the sum of \$2,000,000 are also to be issued.

The value of the property located in Ohio is given at \$2,950,000, while that outside the state is set at \$150,000. The proportion of capital stock represented by property owned and used in Ohio and by business transactions in Ohio is given as \$1,046,774. The property, real and personal, was sold last Saturday at public sale for a total of \$1,350,000, the bondholders being the only bidders. They were represented by a bondholders' committee with total bondholdings representing \$4,799,000.

The new directors, under the reorganization effected yesterday are: S. B. Fleming, Ft. Wayne, Ind.; Carl J. Hoster and C. Christian Born, Columbus; E. V. Hale, W. S. Hayden and C. A. Otis, of Cleveland, and Richard Aldcroft, of New York City.

SEIZURE

OF AMERICAN SHIP WILL BE INVESTIGATED BY THE STATE DEPARTMENT.

British Prize Crew Forced to Remain Below, and Surrendered to German Officers.

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 7.—The story of how a British prize crew of an officer and four men was taken into a German port by one German petty officer of the American bark Pass of Baltimore was told today in a cable report to the state department from Ambassador Gerard at Berlin. The seizure of the ship and some meager details had previously been told in news dispatches.

The American bark Pass of Baltimore with five thousand bales of cotton from New York for Archangel had been held up by a British cruiser between the Faroe Islands and Iceland and a British prize crew was placed aboard to take her to Kirkwall. Soon after the cruiser disappeared, a German submarine halted the bark and the British prize crew concealed themselves in one of the cabins. The submarine commander ordered the American ship into Cuxhaven and placed aboard one non-commissioned officer.

The Pass Baltimore was eleven days making the passage from the Faroe Islands to Cuxhaven during all of which time the British crew remained below and were prevented from coming on deck by the captain of the ship, who said he was afraid "trouble would follow" any attempt on their part to overcome the German officer.

The state department will investigate the seizure of the ship.

The German authorities are expected to contend that cotton was contraband intended for Russia and subject to seizure.

U. S. TO PROTEST PRIZE DECISION OF GERMAN COURT

(ASSOCIATED PRESS TELEGRAM)

Washington, August 7.—The United States will protest against the decision of the German prize court in the case of the British steamer Indian Prince, sunk with a cargo of American owned coffee, in the South Atlantic last winter by the German auxiliary cruiser Prinz Eitel Friedrich. The court had justified the sinking.

The state department takes the view that it is another clear violation of the Prussian-American treaty of 1828 and the principals of international law. Ambassador Gerard will make a formal protest which is expected to bring the case up for diplomatic discussion.

AN ELECTRICIAN CLAIMS HE HAS A HARMLESS X-RAY.

(ASSOCIATED PRESS TELEGRAM)

New York, Aug. 7.—Physicians from several of the leading hospitals of this country, discussed with interest today the discovery of what was described as a harmless X-ray. Fourteen physicians had witnessed yesterday a demonstration of the new ray by Charles Stanley, an electrician who claims to have discovered the ray and who asserts that it eliminates the danger hereafter said to surround the application of the X-ray. Mr. Stanley held a bulb with the ray burning in his hand for an hour to show the physicians that it produced no harmful effect.

CAN PLANT REOPEN.

(ASSOCIATED PRESS TELEGRAM)

Rochester, N. Y., August 7.—It is announced from Geneva that the plant there of the American Can company, closed for the past two years, will be enlarged at once to four times its present size and reopened.

Nashville Mayor's Suspension Was Upheld By Court

(ASSOCIATED PRESS TELEGRAM)

Nashville, Tenn., Aug. 7.—The Tennessee supreme court today upheld the suspension of Mayor Hilary E. Howse and Commissioner Robert Elliott, under ouster proceedings, pending the final hearing. In the separate ouster proceedings, sought against Commissioner J. D. Alexander, the court held the order of his suspension was void. In the case involving a receivership for the city, the order granted by the court of appeals superseding the appointment of a receiver was allowed to stand.

Chancellor Allison today vacated his order appointing a receiver.

ITALIANS TAKE HEIGHTS AFTER A DESPERATE FIGHT

(ASSOCIATED PRESS TELEGRAM)

Paris, Aug. 7.—After a desperate battle, the Italians have stormed and captured the summit of Monte San Michele, which dominates Gorizia, says a Petit Journal dispatch from Turin. The fall of Gorizia, 22 miles northwest of Trieste, on the Isonzo, now is believed imminent, the dispatch adds.

COUNTY BOARD OF EDUCATION MET SATURDAY

The County Board of Education met today with all members present. The business of importance was the redistricting of the county into new supervision districts and the appointment of a school examiner to succeed Superintendent Mason.

The following plan of redistricting was adopted:

Newark township, was added to the S. E. district making Newark, Licking, Franklin, Hopewell and Bowling Green.

Madison, Hanover and Hanover Village were added to Eden, Mary Ann, Fallsbury and Perry.

Bennington except Appleton was put with Burlington, Washington, Newton and Utica Village.

Appleton, Hartford township, Monroe, Liberty, Jersey and Jersey special form one district.

McKean, Granville, Union, Harrison and Granville village.

Etma rural goes directly under the county superintendent, along with St. Albans, Lima, S. Union, Pataskala, Johnstown and Croton. The latter have not formally taken that action as yet.

For county examiner, Principal Darnell of Alexandria was chosen.

Supt. Mason retires from the Board with the best wishes of the scores of teachers of our county who have always found in him a friend. Principal Darnell brings a wealth of experience into the position that will insure him success.

NO FIGHT

IN THE IMMEDIATE VICINITY OF WARSAW BETWEEN BELLIGERENT FORCES

Evacuation Accomplished Without A Struggle, as Preparations Had Long Been Made.

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Aug. 7.—Via London—Warsaw was evacuated by the Russians without a struggle in its immediate vicinity in order that the city might escape damage. The retreat was business-like and orderly.

All the war stocks had been previously removed from the city along with the rolling stock of the railroads. The Russians planted artillery to prevent the re-building of lery to prevent the re-building of the Vistula bridges by the Germans.

According to official information, a large part of the evacuating army remained close to the city, prepared to contest any effort made by the Germans to cross the Vistula in pursuit.

Novogeorgievsk, notwithstanding its investment on three sides, still has railroad communication to the southeast through Nowy Dwor and Yablona. The former town is immediately across the Bug river at the junction of the Vistula. The fortress presents a serious obstacle to the co-operation of the forces of Prince Leopold of Bavaria at Warsaw with those of General Heltz operating along the Narew.

The Germans on the Narew are being held a few miles from the left bank of the river notwithstanding the presence of heavy German reinforcements and the apparently serious efforts made in the last three days to break through into the rear of the Russian Warsaw defenders.

In the vicinity of the Baltic capital of Riga, the Germans have been forced back towards Mitau. The Teutons appear for the time being to have abandoned their efforts in the direction of Riga and intend instead to prevent flanking of their positions from the direction of Poniawesch. Nevertheless it is expected in Petrograd that Riga will be the scene of an early renewal of activities.

The railroads are not taking shipments destined for Riga. Historic monuments are being removed from the city and the exodus of the people continues.

Mrs. Nowrich.

"They tell me, Mrs. Comeup, your daughter went through that reception in her home without faux pas." "No such thing!" She had as much of it as anybody there.—Baltimore American.

PYTHIAN CASTLE
DEDICATION TO
BE BIG EVENT

Much enthusiasm was displayed at the meeting last evening of the general committee on the Pythian castle dedication which will take place on Wednesday, September 22, under the auspices of the Grand Lodge of Ohio. A letter of acceptance of the invitation to be present and officiate over the ceremonies from Grand Chancellor William Schuckardt of Cincinnati was read, while Supreme Chancellor Brig. S. Young of Ada, and Supreme Vice Chancellor John Brown who made the speech at the laying of the cornerstone may be present. E. A. Barber reported that Bakoo Temple, D. O. K. K. of Columbus had unanimously and enthusiastically accepted the invitation to be present on that occasion and will bring with it the famous team which recently won the \$200 prize for excellence in drill, as a drawing feature. All the D. O. K. K. temples in the state will be invited to be here on that day and it is expected that every section of the state will be represented by the daily attired members of that order, which is to the Pythians what the Strikers are to the Masonic fraternity. It is anticipated that there will be at least one thousand members of the Uniform Rank, K. of P., in the line of march on dedication day besides the members of the subordinate bodies.

ITALIAN AIRSHIP
BROUGHT DOWN BY
FIRE OF SHRAPNEL

Berlin, Aug. 7.—(By Wireless to London)—An official statement given out today by the German government, says: "At midnight of August 5, the Italian airship, Citta de Jost, while endeavoring to approach over Pola, was brought down by shrapnel before it could do any damage. All the crew consisting of three naval officers, one mechanic, and two men, were taken prisoners. The airship was taken into Pola."

The loss of an Italian dirigible balloon was officially admitted on August 6 by the Italian government, though the name of the aircraft was not given. The Italian statement said that the airship after throwing bombs on several points, fell for reasons which have been impossible to establish into the sea.

AUSTRIA-HUNGARY
SENDS SYMPATHY
EASTLAND HORROR

[ASSOCIATED PRESS TELEGRAM]
New York, Aug. 7.—Austria-Hungary has expressed her sympathy for the United States in the case of the sinking of the steamer Eastland at Chicago, with the loss of more than 900 lives, according to the following statement issued today at the Austro-Hungarian consulate general here:

"On the occasion of the staggering disaster of the Eastland the Austro-Hungarian minister of foreign affairs, Baron Barian, has requested Ambassador Penfield to convey to the United States government the deep felt sympathies of the Austro-Hungarian government."

PETITION TO PAROLE
ABRAHAM RUEF IS
AGAIN TO BE HEARD.

[ASSOCIATED PRESS TELEGRAM]
San Francisco, Aug. 7.—A petition for the parole of Abraham Ruef, former political leader, who was convicted of offering a bribe to a San Francisco supervisor and is now serving a 14 year sentence in San Quentin prison, is again before the board of prison directors, it was announced today. Ruef has served four years and five months, which with credits for good behavior, constitutes half his sentence. His last petition was denied on the ground that it was against the board's rule to parole a prisoner until he has served at least half his sentence.

There are fewer suicides among miners than among any other class of workmen.

LIQUOR ISSUE
PROMINENT AT
STATE PRIMARY

[ASSOCIATED PRESS TELEGRAM]
Louisville, Ky., Aug. 7.—Democrats, Republicans and Progressives of Kentucky balloted today in a general primary for nominees for all state offices, except one half of the senate. Most interest centered upon the fight for the Democratic gubernatorial nomination, for which three aspirants had waged a warm race, with the liquor question the issue. Republican and Progressive candidates for the various offices were unopposed except in a few instances.

Three candidates seek the Democratic gubernatorial nomination—Lieutenant Governor Edward J. McDermott, of Louisville; former Congressman A. O. Stanley, of Henderson; and H. V. McChesney, of Frankfort. McChesney is running on a platform in favor of statewide prohibition.

The Republican candidates are E. P. Morrow, of Somerset and Earl F. McLaughlin of Madisonville, while Fred J. Drexler, of Louisville is unopposed for the Progressive nomination.

Both former Congressman Stanley and Lieutenant Governor McDermott are opposed to statewide prohibition and favor continuance of the present county unit law under which all but a dozen counties in the state most of them containing the cities and larger towns are already dry.

HE WAITED
TOO LONG

When a woman casts her lot with a man "for better or for worse" she has certainly taken a step that should arouse in him all the faculties of his mind, all his unselfish effort for the proper care of herself and the offspring she may bear him. It is not enough for him to exercise this care for them while he lives, for the thought cannot help coming to the right kind of a man, "What would become of them if I should die before my time?"

SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is
Paxtine
A soluble Antiseptic Powder to be dissolved in water as needed.
As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.
